

# The Green Blue

Making the environment second nature

## THIS BOAT'S ENVIRONMENTAL CODE OF CONDUCT

### Welcome aboard On this boat we...

#### Waste

- ...dispose of waste responsibly
- ...reduce, reuse, recycle where possible

#### Staying Clean

- ...use environmentally friendly products

#### Navigation

- ...navigate carefully, keeping wash to a minimum

#### Oil & Fuel

- ...avoid discharging oil & fuel overboard
- ...learn how to deal with spills

Please support this Code of Conduct while onboard and help keep our canals and waterways clean.

# The Green Blue

Making the environment second nature

## THIS BOAT'S ENVIRONMENTAL CODE OF CONDUCT

**Welcome aboard**

**This is a 'Green Blue' boat...**

- We never throw rubbish overboard and we secure loose items so they stay onboard
- We do not allow any oil or fuel to spill into the water, including when pumping the bilge
- We use onshore toilets where possible and try not to use our sea toilet in low tidal-flushing areas
- We navigate carefully when we see marine animals or are in sensitive areas and keep wash to a minimum
- We choose our anchoring site carefully to minimise impact on the seabed
- We use environmentally friendly products
- We recycle our everyday waste where possible
- We collect and safely dispose of waste from maintenance e.g. antifoul

**Please support this Code of Conduct while onboard and help keep our coasts and shores beautiful.**

**For more tips see [www.thegreenblue.org.uk](http://www.thegreenblue.org.uk)**
